Class Descriptions

Barr - Barre fitness is a hybrid workout class - combining ballet-inspired moves with elements of Pilates, dance, yoga and strength training.

Cycling — Pedal your way to the best shape of your life by working out on high-performance stationary bikes. This workout will take you through a variety of rides including flat roads, hills, jumps, and sprinting. It's an awesome cardio workout that will get your legs moving, your heart rate pumping, your fat burning, and your energy flowing. Our Cycling 45 will be for 45 minutes and our Cycling 60 will be an hour long class.

High Fitness — HIGH Fitness is an emerging leader in group Fitness, inspiring people from all walks of life to a lifestyle to better health and overall wellness. HIGH transforms old school aerobics into a highly addictive new experience that combines simple, modern fitness techniques (i.e. HIIT, plyometrics, ect.) with music you know and love, resulting in a high energy, INTENSE and crazy fun workout that leaves participants feeling HIGH and wanting more. Our formula alternates between cardio peaks and toning tracks that will take your heart rate to the sky and strength to the next level. Beyond the workout, the HIGH Fitness culture embodies a lifestyle of empowering people to maximize their health and the best version of themselves.

GET ADDICTED TO FITNESS!!

Forever Fit — Low impact, easy to follow exercises for all fitness levels ages 55 and over. There is an emphasis on strengthening and stretching the body to help build bone density and improve balance. It's never too late to start feeling great!

H.I.I.T. — High Intensity Interval Training. This high energy, fast paced class is made up of brief all-out exercises, separated by rest periods that you'll wish were just a little longer. We will use full body movement and many incorporate weights, kettlebells and resistance bands for optimal results. In this HIIT class we will be working to utilize our bodies metabolic system to cut as much fat as possible to stay lean and conditioned while adding muscle. This class is great for improving your aerobic and anaerobic endurance for both beginners as well as performance-focused athletes. Be prepared to "BRING IT ALL, AND LEAVE IT ON THE MAT". This is a 45 minute class.

Interval / Circuit — This class is a combination of dynamic movements to increase your heart rate along with sculpting sets utilizing weights, bands, etc. To build & increase muscle tone.

Power Yoga — High energy, full body, muscle sculpting yoga. An ashtanga based practice consisting of active movement to build strength and increase flexibility in tight areas. Modifications available for advanced and beginners.

Restorative Yoga — Is a gentle, slower paced practice where poses are held for a few minutes to promote the recovery of some muscles, tightness, joint or chronic pain. Modification of postures can be used to increase or lessen the intensity of the practice.

Water Aerobics — This class will incorporate use of exercise equipment (water noodles, aqua dumbbells, and aqua jogger floatation belts). A calorie burning exercise program that is an ideal cardiovascular workout for men and women.

Vini Restore Flow — This class blends vinyasa with restorative yoga. Beginning with vinyasa based sequences and then slowing down for deep stretching.

Vinyasa Yoga — Vinyasa yoga is a light cardio practice involving fluid movement of one posture per breath to increase internal and external body awareness. Regular practice will increase flexibility, build lean muscle, reduce stress and strength of the entire body.

Water Walking — This is a great way to change up your work out. Aerobics executed in a low impact water environment. Routine set for seniors. Come out and get your work out in the water and have a great time.

Yoga — Are you looking to strengthen, tone, and improve the flexibility of your muscles while creating balance in your body and mind? Come try our new voga. The result of this is a complete workout that strengthens the body while calming the mind.

1 - Low Intensity Class 2 - Medium Intensity Class 3 - High Intensity Class
